### Dear Valued Republic Partners,

Please note these recent Republic updates to hurricane, windstorm resources, and hurricane listings:

#### 1) General HUR(I) Series Hurricane Product Updates and Reminders

- FBC listing [FL30442.4](#) was added this year to support larger SVR exits with 6"x30" max narrow glass lights
- FAS-SEAL™ sweeps are required for Hurricane HUR(I) DL/DE series impact doors only when water infiltration is required, field prep cut to size, attached with 3-4 no.10x3/4" screws to door bottom 4" from each end and centered (3-4 up to 3'4" wide doors; 4 up to 4' doors). Door uses 3/4" bottom pocket door channel (choose water infiltration in COACH order form to include this door sweep and verify in your order)
- Reminder: see [Hurricane Product](#) and [Applications](#) website pages for Hurricane information
  - Products describe FBC HUR(I) DL/DE doors and supporting ME/SE frames
  - Republic does not carry NOAs; Miami-Dade is supported by FBC listings where HVHZ is specified
  - For TDI approved product, please contact your Allegion sales representative

#### 2) Steelcraft Windstorm Resources login: Online customer access to non-public documents

- Login required from
  - 1) [Republicdoor.com](http://Republicdoor.com) top right Login Portal
  - 2) [Allegion 360 Portal](#)
  - 3) Pricebook Link to Resources
- Hurricane Approval Lookup tools included to direct you to the correct listings, filtered by door, frame, and latching hardware (excel spreadsheet)
- COACH order form tool
- Hurricane Anchor Lookup
- Tornado installation instructions updated
- Check often for updates
